MODEL 5668D
56K* MESSAGE MODEM

The USRobotics 56K* Message Modem features enhanced Fax Machine functionality – it can receive and store faxes without an associated computer being powered on. It also combines convenient telephone messaging features with advanced V.92 technology to optimize performance from your dial-up connection. The integrated answering machine can store up to 20 minutes of phone messages.

Powerful modem features include Quick Connect to reduce your connection time, getting you online quicker, Internet Call Notification which allows you to screen incoming voice calls while online so you won't miss the important ones, and Modem on Hold to answer calls without losing your internet connection – no second phone line is needed! V.PCM Upstream gives you upload speeds up to 50% faster – perfect for sending e-mail messages with attachments.

USRobotics®

56K Message Modem

Integrates powerful faxing & voice messaging capabilities

|	
Enhanced Integrated Fax Capability	• Receive and Store faxes on the modem – no computer needs to be turned on • Retrieve Faxes remotely while away from the office
Independent Voice Messaging	• Store up to 20 minutes of messages or approximately 50 fax pages • Voice messages can be remotely retrieved through a dial-up connection
Get the speed you need	• Need to send digital pictures or a large presentation? V.92 lets you send attachments up to 50% faster! • Quick Connect lets you establish your connection quicker – spend less time dialing up. You're only seconds from surfing the Web!
Powerful Management Tools	• USRobotics Internet Call Notification (ICN) lets you screen incoming calls so you can take the important ones. (Call Waiting and Caller ID require service from your local phone company.) • Modem on Hold lets you take calls while online without dropping your Internet connection – there's no need for a second phone line
Software upgradable	• Download new features and enhancements as they become available
Fax and communications software included	• Send and receive faxes from any Windows application – supports delayed and broadcast faxing and includes customizable interface
Exclusive USRobotics Control Center	• Customize your upload and download speeds – choose to surf the Web at top speed or to send e-mail attachments faster
