The USRobotics *uShare™* Mini NAS Adapter easily turns your USB hard drive into shared storage on your local network and so much more. Simply connect an external USB hard drive or USB flash drive to the NAS Adapter and within a few clicks share files with anyone on your local network, stream music or videos on your Xbox 360/PS3, share a printer over the network, or set up a Bit Torrent download session. With just an Internet connection, the NAS adapter allows easy remote access to the files on the attached hard drive from anywhere - no need to carry extra drives. Great compatibility means that users on different systems can easily share files - Windows, Mac and Linux. Reduce the clutter and save space - the NAS Adapter is one of the smallest NAS products available.
